

GYANLY DIGITAL LEARNING PLATFORM

DATA PRIVACY & TECHNICAL SECURITY COMPLIANCE ASSESSMENT

Evaluation Framework: Digital Personal Data Protection (DPDP) Act, 2023 | MeitY, Govt of India

Document Ref: GYANLY/DPDP-2023/AUDIT-REV1

Date: 23 August 2026

Assessment Status: VERIFIED COMPLIANT

1. EXECUTIVE SUMMARY & JURISDICTIONAL CONTEXT

This technical audit evaluates the data governance, user authentication, access control architecture, and privacy disclosures of Gyanly (<https://www.gyanly.org>) under the provisions of the Digital Personal Data Protection (DPDP) Act, 2023 (Act No. 22 of 2023) enacted by the Ministry of Electronics and IT (MeitY). As an educational e-publishing and digital literacy service, Gyanly operates with strict purpose limitation, one-way cryptographic password hashing, zero plain-text storage, and no third-party data brokerage.

2. STATUTORY COMPLIANCE & TECHNICAL ALIGNMENT MATRIX

STATUTORY PROVISION	TECHNICAL IMPLEMENTATION (GYANLY)	AUDIT STATUS
Sec 6: Notice & Consent	Explicit user opt-in during registration & purchase flows	VERIFIED COMPLIANT
Sec 7: Purpose Limitation	Data processed strictly for digital book access & orders	VERIFIED COMPLIANT
Sec 8(5): Data Protection	Bcrypt password hashing & 256-bit SSL/TLS HTTPS encryption	VERIFIED COMPLIANT
Sec 8(7): Data Erasure	Right to deletion supported via gyanly.contact@gmail.com	VERIFIED COMPLIANT
Sec 8(9): Grievance Desk	Official Grievance Officer & SLA listed on published Terms	VERIFIED COMPLIANT
Sec 9: Child Protection	Educational material free from targeted behavioral ads	VERIFIED COMPLIANT
Payment Card Protection	Direct UPI / QR integration; Zero card/CVV data stored	VERIFIED COMPLIANT

3. TECHNICAL SECURITY INFRASTRUCTURE & ACCESS CONTROLS

- Cryptographic Storage: User authentication credentials undergo salted bcrypt hashing before database commit.
- DRM Protected Delivery: Ebooks are rendered on-demand in DRM-shielded memory buffers without exposing raw files.
- Network Shielding: Cloudflare/Vercel edge security with DDoS mitigation, HSTS, and rate-limiting enabled.
- Zero Data Brokerage: No tracking pixels or advertising broker SDKs share telemetry with external networks.
